Description: Wedge Antilles, known as TIE SS-2-5 during his time at Skystrike Academy, was a renowned human male starfighter pilot from Corellia who first served in the Imperial Navy as a TIE fighter pilot until defecting to join the rebellion. He would also serve in the Alliance to Restore the Republic and years later the New Republic during their fight against the Galactic Empire. He became a member of the Rebel Alliance during the Galactic Civil War and fought in several battles of the war. He fought in the Battle of Yavin, where he flew in Red Squadron alongside Luke Skywalker. After Skywalker destroyed the Death Star, he and Antilles were left as the only survivors of Red Squadron.

In the years that followed, Antilles became a respected member of Rogue Squadron, flying as Rogue Three during the Battle of Hoth. Antilles and his gunner Wes Janson became the first duo to successfully destroy one of the All Terrain Armored Transports that were attempting to destroy Echo Base, the Rebel outpost on the planet Hoth, while aboard an T-47 airspeeder. Six months after the evacuation from Hoth, Antilles commanded Red Squadron during the Battle of Endor, and he and General Lando Calrissian destroyed the second Death Star during the battle. The decisive battle led to the death of the Emperor, Darth Sidious, and left the Empire shattered in their defeat.

The Rebel Alliance soon reorganized into the New Republic, and Antilles continued to serve in their war against the now weakened Empire. Antilles undertook a lone reconnaissance mission to the planet Akiva, where he was captured while observing a gathering of Imperial forces that were preparing for a counterattack against the Republic. Following the rebellion on Akiva, Antilles formed Phantom Squadron and took part in the liberation of Kashyyyk. While Phantom Squadron was disbanded by the New Republic authorities for launching an unauthorized strike on Kashyyyk, Wedge was able to reform the squadron in time for the Battle of Jakku, which saw the definitive defeat of the Empire.

Following the signing of the Galactic Concordance, Antilles retired to Hosnian Prime to work as a flight instructor. Sometime afterwards Wedge married Norra Wexley and settled back on Akiva until they were visited by Norra's son Temmin and his wife Karé Kun during the war between the Resistance and the First Order.

In 35 ABY, Wedge fought alongside Rebel veterans Lando Calrissian and Chewbacca over Exegol against the resurrected Palpatine's hidden fleet.

Personality and traits
Wedge Antilles was a human male with brown hair, brown eyes, and light skin. While Antilles had earned a place at the prestigious Skystrike Academy, he became disillusioned with the Empire for shooting unarmed transports. This led him and Derek Klivian to desert the Empire and join the rebellion. In his youth, Antilles could be carefree at times and was once had to reminded by Hera to remain alert for an upcoming training exercise. Antilles also found the droids AP-5 and Chopper petty and argumentative. Still, he was a good team player and joined forces with his fellow rebels to

steal Imperial clearance codes and to prevent an Imperial-hijacked Chopper from transmitting the coordinates of Chopper Base to the Empire.

Through his service to the Rebel Alliance, he garnered the respect of his fellow Rebel fighters. Focused and calm during his flights, he firmly believed that the only way to improve as a pilot was to constantly come up against the impossible and push oneself to the limit; during battles, he would concentrate on keeping his cool and trusting his instincts. Antilles disliked being away from a cockpit for too long, and though he did not mind commanding, Norra Wexley once noticed that his whole body seemed to hunger for being behind a flight stick. Despite his talent and standing among his fellow pilots, Antilles remained approachable and friendly to those around him.

Bitter at the Empire for what it had done to the people he loved, Antilles had an unwavering strength of belief in the Alliance, and although courageous and full of resolve, he once resorted to bravado at the prospect of being tortured to death. He was also unaccustomed to not being taken at his word—if he believed someone was good and told them so, he really meant it as he was not one to flatter others in his own interest, and was not capable of telling others easy lies. Antilles was known to be fond of giving everyone lectures about trigger discipline, which meant not putting one's finger on the trigger until they were ready to pull it.

Wedge's loyalty to Princess Leia led him and his Phantom Squadron pilots to take part in an unsanctioned mission to liberate Kashyyyk. While the New Republic military leadership publicly praised Wedge and his fellow pilots, they were transferred to support duties as punishment for acting outside the official chain of command. Due to this disciplinary action, Wedge was despondent and unwilling to take risks. However, his friend Temmin managed to convince him to change his mind by reminding Wedge of his past heroism during the Galactic War. Wedge was a competent commander who led his squadron in attacking Imperial ground forces on Jakku in order to aid the New Republic ground assault.

Though he was getting older in his later years, Wedge refused to admit it, even rebuking Kare Kun when she asked if he needed assistance.

Skills and abilities
Antilles was a renowned pilot in the Rebel Alliance. He fought in numerous battles during the Galactic Civil War, earning him recognition from his fellow Rebels for his bravery and ace piloting abilities, being famed as legendary by some. During the first time he tried a flight simulator, he lasted less than ten seconds, prompting him to practice and listen to advice from more experienced pilots. He would eventually obtain the highest scores, only surpassed by Luke Skywalker. Due to his training as a TIE fighter pilot, Antilles was familiar with Imperial military protocol which helped him during an undercover mission to steal Imperial clearance codes.

As a skilled starfighter pilot, Wedge shot down several Imperial fighters, transports, and walkers during the Battle of Jakku. In recognition of his efforts, Antilles was made the head flight instructor of a New Republic flight academy on Hosnian Prime following the Galactic Civil War.
