

Weapons D6 / Nercal Sky-Lancer Repeating Plasma Emplacement

Nercal Sky-Lancer Repeating Plasma Emplacement

The Sky-Lancer RPE was designed to deal with enemy vehicles while fitting into a pillbox, bunker, or foxhole. The weapon first saw use against MetaCorp when MetaCorp tried to destroy an industrial complex. The RPEs managed to hammer the MC hunter-killer out of the air and help bring down one of the enemy tanks. The weapons are fast and powerful but incredibly hard to move and don't work well if the cryo-cooler gets damaged.
