Move: 21, 60 kmh
Body Strength: 4D
Cargo handling systems: Grasping Arm
Weapons:

Description: The mobile loading gantry was a model of walker that was used by the New Republic at the Karthon Chop Fields, which was under the jurisdiction of the New Republic Correctional Corps. Mobile loading gantries could be fitted with a claw and be used for scrapping, and were similar to another model that was used on Trask.
