Planets D6 / Shuraden

Name: Shuraden
Region: Galactic Frontier
Moons: At least 2
Class: Terrestrial
Points of interest: Needles
Native species: Ximpi
Major cities: Ximpi city

Description: Shuraden was a terrestrial planet on the Republic Frontier that was inhabited by the Ximpi, a diminutive winged sentient species. During the High Republic Era, Jedi Master Sskeer took his Padawan Keeve Trennis to Shuraden so she could undergo her Jedi Trials.

Places of Interest

Needles

The Needles were a formation of tall, relatively fragile rock spires on the planet Shuraden. During the High Republic Era, Jedi Master Sskeer brought his Padawan Keeve Trennis to the Needles for her Jedi Trials, challenging her with locating a Tythonian pendant he had hidden atop one of the spires. A Ximpi city was located in the vicinity of the Needles.

Unidentified Ximpi city

A Ximpi city was located on the planet Shuraden around 232 BBY. The city was home to a population of Ximpi.
