Description: Havina Vonreg was a human female pilot of the Galactic Empire and a member of the

Vonreg family, an aristocratic family. Vonreg served in Titan Squadron tasked with hunting down the New Republic's Project Starhawk.

During the Galactic Civil War, Havina Vonreg's brothers were killed by a rebel attack. She was present during the Battle of Endor, which saw the death of Emperor Palpatine and left half of her trusted squadmates dead. She had seen friends defect to the Rebellion and betray the Empire. She was aware of the defectors, Iden Versio, Yrica Quell, and especially Lindon Javes who her squadron chased. Following Endor, Vonreg served in Titan Squadron under Varko Grey. She shared her last name with First Order pilot Elrik Vonreg.

Personality and traits
Vonreg was a human female with black hair, blue eyes, and light skin. As an Imperial TIE pilot, she wore a standard issue TIE fighter pilot uniform, and a black helmet with a red skull painted on the front. Vonreg was generally a brash and cold woman who's only goal was to destroy the New Republic.
