Description: Saku was a female human who lived in Meevai Village on Keelia sometime after the Clone Wars. She was the granddaughter of the then village chief, and had a sister called Haru.

Biography
Local raider Lord Izuma, who took over much of the deserted Separatist arsenal on Keelia, at one point demanded her grandfather as collateral to avoid unnecessary conflict with the villagers. Haru and her bridegroom Asu both volunteered to go in his stead, despite repeated protests from Saku. Haru and Asu's wedding ceremony took place the night before they were to be taken. When the village gathered to eat that night, Saku and several others ended up storming off when Haru

refused to back down.

On the day following the wedding, Haru and Asu turned themselves in to Izuma. Saku and others had secretly organized an ambush on the raiders, but their plans were foiled. When Izuma was ready to execute Saku for being the leader, the Jedi F intervened and saved her. F's companion Valco destroyed Izuma's ship, thus disabling his battle droids. In the ensuing chaos, Izuma's associates fled. Izuma then took Haru as hostage. In a swift move, F struck down the raider, and saved Haru, Saku, and the rest of the villagers.

Sometime later, Saku and other villagers thanked F for her help, and said their farewell to F as the Jedi left the planet.

Personality and traits
Saku was a defiant and stubborn individual. She tried to convince her sister not to sacrifice herself to Izuma and his raiders and instead advocated for resisting by fighting back. When Haru calmly accepted her fate, Saku decided to take matters into her own hands and make plans to attack their enemies. She was a capable leader, able to rally several other villagers to her cause. She wore her blonde hair in a ponytail and had green earrings.
