Description: Kisma Uttersond was a Chadra-Fan male doctor who cared for Mari San Tekka, a hyperspace prospector who was kept aboard the Nihil flagship Gaze Electric, surviving in a medical capsule. Uttersond would be summoned when San Tekka, who was used by the Eye of the Nihil Marchion Ro to discover Paths through hyperspace, entered into a seizure. Following the Great Hyperspace Disaster, Ro wished for San Tekka to find the locations of future Emergences of the event. Uttersond contacted Ro through his comlink, insisting that San Tekka be allowed to rest for at least a week. Ro dismissed the doctor, ending the transmission when he attempted to continue speaking.
