Corellian CC-7700 Frigate

The CC-7700 is an older sibling to the Corellian gunship. While lightly armed, the CC-7700 is designed mainly as a platform for a gravity well protector. The function of this vessel is to prevent the withdrawl of enemy vessels from a battle. The CC-7700 is a rarity among the Alliance forces and the exact number in the Fleet is a closely guarded secret along with their location.
