Special Abilities:

Born Survivors: Sand People are raised in the desert and tempered by it, making them capable of surviving in environments far tougher than most species can. This gives them a bonus +2D to all Survival checks.

Dry: The Sand People manage their water use because of the arid environment they come from, only requiring 50% of the water that most species require.

Story Factors:

Technological Distrust: Stories from ancient Storytellers of the Tusken speak from a disaster on Tatooine long ago, the Tusken had made there living under the surface of the planet and returned as survivors to the desert. As a result Tusken distrust High-Tech and get a strong survival feeling of unease around it.

Masked: Due to their harsh environment, Tusken Raiders always go masked and robed to save every drop of water. This has become almost religious to them, as they cover themselves at all times and do not show their faces except at very special times such as marriage and child birth.

Description: A male Tusken Raider served as the craftsman of gaderffii sticks for a tribe of Tuskens in the Dune Sea of Tatooine. He guided individuals in the making of sticks after they had proved themselves worthy of the weapon. He operated in an open-air workshop that sat in the shade of an old shipwreck.

Around 4 ABY, he taught Boba Fett in the ways of gaffi crafting after the former bounty hunter had proven his loyalty to the tribe. The Tusken watched over Fett as he carefully crafted his weapon from the branch of a desert tree. Under the craftsman's watchful eye, Fett constructed his own gaderffii stick that received the approval of a skilled warrior of the tribe.
