

Starships D6 / Discriminator Frigate

Discriminator Frigate

The Discriminator frigate is Wereling's largest capital combat ship. It is commonly found in the Palvar Sector, especially in and around the Wereling system. In form, the Discriminator is not a sleek vessel, it has several weapons turrets, sensor arrays, communications arrays, targeting systems, etc jutting from various points along its hull. The four Setec IDE-11a ion drive engines are mounted on the frigate's tail, each on the end of a separate pylon with turret engines which can turn each engine up to 180 degrees in any direction, giving the Discriminator superb maneuverability for a ship of its class.
