Biography
Chachi was native to Jivv Space City, a large orbiting metropolis on Duro, but eventually left to start up business on Tatooine with her husband, Ohwun De Maal. Together, the two owned several docking bays in Mos Eisley, including Docking Bay 27, 43, 67, 71, 86, and 94. They also owned the droid WED-9-M1. In the two Duros line of work in which shady characters were constantly renting our their ship storage facilities, they were known to use several well-known aliases. Among Chachi's aliases were Baniss Keeg and Probos.

The couple once discovered a star with three dead planets, all of which were rich in Helixell, a key mineral in hyperdrive fuel. As of 0 BBY, they were deciding on whether to report their findings to the Empire or secretly claim the Helixell for themselves. Chachi and her husband were present in Chalmun's Cantina during the fateful encounter of Luke Skywalker and Han Solo. It just so happened that Solo had been storing his ship, the Millennium Falcon in their Docking Bay 94. When Solo and his cargo blasted out of the docking bay to escape the Galactic Empire, they forgot to pay their bill, irritating Owhun and his wife and souring their previously friendly relationship with Jabba Desilijic Tiure. The couple was also known to have smuggled bacta to the Rebel Alliance in their freighter, Millanti.
