Description: Hol Okand was a male Human who served as a starfighter pilot of the Alliance to Restore the Republic during the Galactic Civil War.

Biography
Flying under the callsign Gold Six, Okand flew with the Y-wings of Gold Squadron in the early years of the Alliance. Prior to the Battle of Yavin, Okand played a role in disabling the deflector shields of an Imperial outpost at Kashyyyk, where he flew as Jon Vander's wingman, using his ion cannons to bring down the shields.

While stationed at Massassi Station, Okand was befriended by Chewbacca, newly arrived with Captain Han Solo prior to the arrival of the Death Star. In the following battle, Okand lost his life after his fighter was shot down by TIE fighters.
