-Extensible video microbinoculars (+2D to search for microscale work)
-Various tools
-Cybot acoustic signaler (droid languages)

Move: 8
Size: 1.6 meters

Description: WED-15 "Septoid 2" was a treadwell droid on Tatooine. He belonged to Fixer, who used him at his job at Tosche Station. Luke Skywalker was envious of the droid, due to his own treadwell, WED-15-77's limited capabilities.
