Description: Obi-Wan Kenobi was a legendary Force-sensitive human male Jedi Master who served on the Jedi High Council during the final years of the Republic Era. As a Jedi General, Kenobi served in the Grand Army of the Republic that fought against the Separatist Droid Army during the Clone Wars. Kenobi, however, was forced into exile as a result of the Great Jedi Purge. As a mentor, Kenobi was responsible for training two members of the Skywalker family, Anakin and Luke Skywalker, both of whom served in turn as his Padawan in the ways of the Force.

Kenobi was born on the planet Stewjon in 57 BBY. He was Force-sensitive, and therefore taken from his family and inducted into the Jedi Order as a child. Raised in the Jedi Temple on the planet Coruscant, Kenobi was assigned to Jedi Master Qui-Gon Jinn. In 32 BBY, Kenobi attained the rank of Jedi Knight by defeating the Sith Lord Darth Maul during the Invasion of Naboo. He also chose to train Anakin Skywalker—the prophesied Chosen One who was destined to destroy the Sith and restore balance to the Force—having promised Jinn who died in the lightsaber duel against Maul.

With the advent of the Clone Wars in 22 BBY, Kenobi adopted the military rank of High Jedi General in the Grand Army of the Galactic Republic, and was given command of the Open Circle Fleet, the Third Systems Army, and the 7th Sky Corps. Clone Marshal Commander CC-2224 "Cody" served as his second-in-command throughout the galaxy-wide conflict, with their forces achieving multiple victories over the Confederacy of Independent Systems. In the midst of the war, his old enemy Maul re-emerged into galactic affairs, bent on revenge against Kenobi for his debilitating defeat decades prior. Though they clashed in heated duels on multiple occasions, Maul failed to end Kenobi's life or cripple his spirit, despite murdering his former love, Satine Kryze, Duchess of Mandalore.

In 19 BBY, Kenobi killed the Separatist Supreme Commander, General Grievous during the Battle of Utapau, effectively ending the Clone Wars. He later survived the initial onslaught of the Great Jedi Purge against the Jedi Order, which resulted from the machinations of the Sith Lord Darth Sidious. After discovering that Skywalker had turned to the dark side of the Force, becoming Sidious' Sith apprentice under the name of Darth Vader, Kenobi defeated his former Padawan on Mustafar and exiled himself to the Outer Rim planet Tatooine as the Galactic Empire rose to power. Adopting a hermit lifestyle as "Ben Kenobi," he watched over Vader's and Senator Padmé Amidala's son, Luke.

Biography

Hunted by the Inquisitorius

In 9 BBY, the Inquisitorius—including The Grand Inquisitor, the Fifth Brother, and the Third Sister—arrived in Tatooine's Mos Eisley in search of a fugitive Jedi rumored to be hiding on the planet. By that same year, Kenobi had come to reside in a cave in the Dune Sea desert. Working at Tibidon Station,a sand whaling station, he rode a hovertrain into Anchorhead with his co-workers, continuing on an eopie to his cave. One day, Kenobi was visited by the Jawa Teeka, who presented the Jedi with several spare parts for a toy T-16 skyhopper. Teeka also offered to sell spare parts to Kenobi's malfunctioning moisture vaporator, but the Jedi realized that the Jawa had been stealing his parts and chastised Teeka. Before departing, the Jawa showed spare parts from an alleged Jedi starship that had crashed in the Dune Sea to Kenobi, who remarked that the Jedi were believed to be extinct.

That night, Kenobi was haunted in his dreams by memories of Anakin Skywalker, Padmé Amidala, Qui-Gon Jinn, and Yoda. The following day, Kenobi rode his eopie to the Lars homestead, where he observed with macrobinoculars the young Luke Skywalker and Owen Lars from a distance. While riding his eopie through the desert the following night, Kenobi was confronted by the fugitive Jedi, a human male named Nari, who had managed to escape the Inquisitors earlier and pleaded for the Jedi Master's help. However, Kenobi urged the Jedi to bury his lightsaber and flee, much to the disappointment of Nari, who still believed in the fight—which Kenobi believed to be over and lost.

In Anchorhead, Kenobi met with Lars to hand over the toy parts he had acquired from Teeka earlier, but the farmer refused to accept the presents and asked Kenobi to stay away from his family. After arguing with Lars about the future of Skywalker, Kenobi hid nearby as the Fifth Brother

and the Third Sister arrived to address the inhabitants regarding the fugitive Jedi they were looking for. The Third Sister took a particular liking to Lars and threatened to kill his family unless information about the fugitive was brought forward, but the farmer stayed quiet until the Fifth Brother intervened. Afterward, Kenobi thanked Lars for not revealing anything about him or his whereabouts.

Obsessed with finding Kenobi, the Third Sister plotted to lure out the fugitive Jedi Master and arranged for the kidnapping of Leia Organa on Alderaan. As she suspected, Kenobi received a distress call from Bail and Breha Organa, who pleaded with the Jedi to help retrieve their daughter. However, Kenobi—intent on protecting Luke and believing himself to have been out of the game for too long—declined the request. Later, after witnessing the dead body of Nari in Anchorhead, Kenobi was visited in person by Bail Organa, who again pleaded with the Jedi to help him. After relenting, Kenobi retrieved his lightsaber from the desert and headed for a spaceport, where be boarded a freighter to depart Tatooine in a commercial transport.

Rescuing Leia Organa

Arriving on Daiyu, the planet to where Bail had tracked the mercenaries who had kidnapped Leia, Kenobi first encountered a homeless veteran clone trooper and gave him some change, and then a female spice dealer named Tetha Grig. Eventually, Jayco, a young boy, encouraged Kenobi to seek out Haja Estree, supposedly a Jedi who helped people, and took him to his lair, where Kenobi overheard Estree helping a mother and her Force-sensitive son, Corran, by mind tricking a spaceport worker to let the two leave the planet. However, Kenobi correctly suspected that Estree was nothing more than a con artist and confronted him at gunpoint. Pressuring Estree into locating Leia, Kenobi was advised by the con artist to look in the Spice Den.

Infiltrating the Spice Den in a stolen cape and mask, Kenobi used the chaos brought on by the explosion of a small vat to steal a keycard from an employee and access a closed-off area of the laboratory complex. Confronted by two employees, a Zabrak and a human, he managed to overpower both, before finding a room with a small human-like figure with a cloak. As Kenobi entered the room, Vect Nokru—who had kidnapped Leia from Alderaan—and two companions ambushed the Jedi, but he was able to defeat the trio with the help of a vial of red spice. Checking another room, Kenobi found Leia and told her he was sent by her father, Bail, to rescue her.

As the two changed clothes to avoid detection and started making their way to a port on the other side of the city, the Third Sister arranged for Kenobi to be hunted by bounty hunters and criminals throughout the planet. However, Leia eventually became suspicious of Kenobi and his intentions, not believing him to be a real Jedi. After Kenobi knocked down a bounty hunter in pursuit, the two saw a hologram of the Jedi Master, leading Leia to believe that Kenobi lied to her and correctly deducing that the kidnappers used her as bait. As Leia tried to flee through the streets and to a rooftop, Kenobi attempted to catch her, only for the two to be ambushed by bounty hunters looking for the Jedi. As Kenobi returned fire, Leia attempted to make the jump to another building, but fell short; as the Jedi used his Force powers to stop her from falling to her death, Leia finally believed he was a real Jedi.

Realizing the spaceport of Daiyu was closed for travel, Kenobi and Leia made their way to a cargo port on the recommendation of Estree, who confronted the two in an alleyway after having a change of heart. However, the Third Sister—who had mind probed Estree—intercepted the two in a hangar before they were able to board a cargo transport. Telling Leia to go for the transport, Kenobi prepared to confront the Third Sister, who informed him that he was to be taken to Lord Vader, only to realize that Kenobi was not aware of the fact that Vader survived their duel on Mustafar. Before a confrontation could occur, however, The Grand Inquisitor arrived in the hangar

and ordered the Third Sister to stand down; unwilling to let her superior take the credit for catching Kenobi, the Third Sister stabbed him while Kenobi used the ordeal to make his way to the cargo transport where Leia was waiting. As the transport departed, Kenobi was shaken by the revelation of Vader's survival.

Arriving on Mapuzo

While cargo shuttle transported Kenobi and Organa to the planet Mapuzo, the Jedi reflected on the news of his former apprentice's survival. As he repaired the princess' smashed toy droid, Lola, the two conversed about the nature of the Force, with Kenobi comparing it to the feeling of safety lights were turned on in a darkroom. After the shuttle landed on Mapuzo, Kenobi and Organa began traveling to a rendezvous point to meet a contact of Haja Estree. Walking across the barren desert planet, Kenobi told the princess of Mapuzo's past as a lush planet filled with life, before the age of the Empire. As the two continued toward the rendezvous point, Kenobi spotted a hooded figure on the horizon—a vision of Anakin Skywalker. To avoid attracting any unwanted attention, he fabricated a cover-up story, where the Jedi was a traveling farmer and the princess was his daughter.

The two eventually reached the rendezvous point, but the contact was nowhere to be found. As they noticed a vehicle on the horizon, Organa waved it down despite Kenobi's protests. When the driver, Freck, offered the two a ride to the nearest spaceport, Kenobi reluctantly followed Organa on the back of the vehicle. During the ride, Freck made conversation, revealing that he was a staunch supporter of the Empire; noticing a squad of stormtroopers, he pulled over and offered them a ride. The Imperial soldiers disclosed that they were searching for a nearby Jedi, and as they questioned Kenobi and Organa over their presence on Mapuzo, the Jedi accidentally used Organa's real name, instead of the fabricated name. However, Kenobi was able to cover up the mistake by claiming that his daughter reminded him of his late wife; satisfied with the explanation, the stormtroopers got off Freck's vehicle.

After the close call, Kenobi was asked by the princess if he knew her actual mother or if he was her real father, with the Jedi denying both claims and telling Organa that he could barely remember his own family before his indoctrination into the Jedi Order. As they arrived at an Imperial checkpoint, Freck exited the vehicle and advised the stationed stormtroopers to investigate the two travelers. Asking Kenobi and Organa to step outside the vehicle, the stormtroopers called in a probe droid to perform a facial scan. Just as the probe droid identified Kenobi's face, he pulled out a blaster and quickly dispatched the droid and the stormtrooper squad before knocking Freck unconscious. Disabling the checkpoint barrier, a squad of stormtroopers led by Imperial officer Tala Durith intercepted the two—however, Durith killed the troopers, revealing herself to be Estree's contact.

Rematch with Darth Vader

Durith brought Kenobi and Organa to a nearby settlement and explained that they would have to wait several hours before one of her pilots could take them off-world. The trio sought shelter in Durith's workshop, where she revealed that she was working to help surviving Jedi and other Force-sensitives to escape the Empire as part of an underground organization called the Path. Kenobi was delighted to find that Quinlan Vos had passed through Durith's hideout at some point in the past. Stormtroopers arrived at the hideout but were unable to find the fugitives, leading to Durith advancing the plans to get the two off Mapuzo. As they were about to leave for the spaceport, Kenobi felt a sudden disturbance in the Force: Darth Vader, accompanied by a contingent of Inquisitors and stormtroopers had arrived in the settlement after being alerted by the probe droid Kenobi had destroyed earlier. Hoping to draw out Kenobi, Vader walked through the town, terrorizing and killing civilians at random. Intending to distract Vader, Kenobi urged Durith to get Leia off-world and back to Alderaan.

Fleeing into a nearby quarry, Kenobi wandered aimlessly until he was confronted by Vader, who ignited his lightsaber. The Jedi, however, ran deeper into the quarry without igniting his lightsaber, but he was again cut off by Vader. Fleeing once more, Kenobi was ambushed by the Sith Lord, and the Jedi engaged in a brief yet fierce duel with his old apprentice. Overpowered, Kenobi was forced back by Vader, who knocked over a container filled with flammable rocks. Thrown into the flames by Vader, Kenobi was dragged across the burning rocks before the Sith ordered a stormtrooper to seize the wounded Kenobi. However, before Kenobi was caught by the Empire, Durith, who was nearby watching the events unfold, shot the trooper and reignited the rocks. Blockaded by the sea of flames, Vader was unable to catch Kenobi, who managed to escape, albeit wounded, with Durith.

Infiltrating the Fortress Inquisitorious
Following his rematch against his old apprentice, Durith took a barely-conscious Kenobi to Jabiim, one of the worlds where the Path helped move hunted Jedi to safety. He was submerged in a bacta tank tank to heal the burns on his upper body after Vader dragged him through the flames, but a mental link between he and Vader brought Kenobi back to consciousness. Durith took him to Roken, one of the rebels helping Jedi and Force-sensitive individuals in the galaxy. Initially reluctant to help Kenobi rescue the young Organa, Roken relented and assisted Kenobi in the operation. They used Durith's Imperial security clearance to fly to Nur, a water moon in orbit of Mustafar, where the Fortress Inquisitorius was located. Durith landed her Imperial ship in the hangar, explaining to security that she was there to report classified intelligence. She then found a control room where she guided Kenobi in the stronghold via an underwater hatch.

Once inside, Kenobi evaded seeker droids and stormtrooper patrols to eventually find Organa who was on the verge of torture at the hands of Third Sister. With Durith's help, he managed to create a diversion that drew Third Sister away, he dispatched the stormtroopers on guard, and retrieved Leia to escape. Rendezvousing with Durith, he donned a gray Imperial trench coat to blend in with the Imperial forces while they made their way back to the shuttle in the hangar. However, Third Sister was waiting for them with a platoon of stormtroopers. Vastly outmatched, the trio almost surrendered but Sully and Wade arrived in two T-47 airspeeders, dispatching most of the Imperial ground forces in the hangar. Kenobi, Durith, and Organa boarded Sully's airspeeder, though as they made their retreat Third Sister managed to destroy Wade's airspeeder, killing him. They arrived aboard Roken's ship and they departed Nur, mourning the death of Wade.

After their departure, an infuriated Vader nearly killed Reva for disobeying his orders until she revealed that she planted a tracker that would lead them to Kenobi and the Path, revealing that she had modified Lola.

Personality and traits
During his exile on Tatooine, Kenboi was forced to engage in self-reflection that he described as agonizing. Over the years, he was forced to dismantle systemic rituals and ingrained doctrines he had experienced during his time with the Jedi. As he learned to forgive himself for mistakes he made during the war, as well as forgiving others.

Powers and abilities
Kenobi was also able to defeat his former apprentice Anakin Skywalker, then Darth Vader, in an epic duel on Mustafar. Making use of his staunch Form III defense throughout the fight, Kenobi was eventually able to exploit Vader's aggressive nature, and dismembered the hate-filled Sith Lord when he recklessly jumped towards him. While initially not as skilled due to having lost his connection with the Force, Kenobi was able to get the edge once again over his former apprentice Darth Vader on another duel ten years later.
