Move: 10
Force Sensitive: N
Force Points: 1
Dark Side Points: 1
Character Points: 3

Equipment:
- Imperial uniform, Blaster Pistol (4D), Commlink, Imperial Code Cylinders

Description: M'Kae was a Human male Warrant Officer of the Galactic Empire who lived during the time of the Galactic Civil War, a major galactic conflict fought between them and the Alliance to Restore the Republic. Sometime following the Battle of Yavin, M'Kae was stationed in the city of

Restuss on the planet Naboo's moon of Rori. While there, he led a group that rescued the pilot Cal Handro from Alliance operatives. However, he was persuaded to give away Handro's whereabouts by a spacer working for the Alliance, and the spacer pursued and killed Handro. In 3 ABY, after overseeing various dangerous missions, M'Kae served as the communications officer, as well as the hard-working signal officer, of the Imperial II-class Star Destroyer Avenger, attached to Dark Lord of the Sith Darth Vader's personal Star Destroyer fleet, Death Squadron. He apprised Darth Vader's flagship, the Super Star Destroyer Executor, of the Avenger's activities, and relayed orders from the Executor to the Avenger's captain, Lorth Needa. He also coordinated and tested tractor beam equipment.

In 3 ABY, following the Battle of Hoth, M'Kae was aboard the Avenger's command bridge when the Star Destroyer pursued the fugitive YT-1300 light freighter Millennium Falcon from the Hoth system. When the Avenger lost the Falcon in the Anoat system, M'Kae relayed Lord Vader's order for an update on the pursuit to Needa. The captain decided to go to the Executor and apologize to Vader for the failure, while ordering his crew to continue searching for the Falcon. The rest of Death Squadron would ultimately disperse into hyperspace in search of the Falcon, along with the Avenger. Before the Avenger went to hyperspace—not knowing of the Falcon still being on its conning tower—it disposed of its garbage, and the Falcon took the opportunity to float away with the garbage, effectively avoiding detection.

Equipment

During M'Kae's service in Restuss, he wore the standard Imperial officer's uniform. During his service aboard the Avenger during the Hoth campaign, M'Kae wore a gray Imperial Navy crewman uniform.
