Equipment D6 / Personal Identifier Transpond

Name: Personal Identifier Transponders
Type: Compact encoded security device
Scale: Character
Skill: Computer programming/repair
Cost: 500
Availability: 2
Game Notes: A Personal Identifier Transponder accesses computer data via a droid’s comp link or provides entry into restricted facilities. Each Transponder features the user’s personal security clearance data and access codes encrypted within them. Personal Identifier Transponders can be programmed at properly equipped computers by making a Moderate computer programming/repair roll. Without such systems the difficulty is Very Difficult.
In some cases, they were used to conceal "lullaby" suicide pills.

Description: Personal identifier transponders were devices that some members of the Alliance to Restore the Republic's military wore on the left or right breast of their service uniform. In some cases, they concealed "lullaby" suicide pills.
