Special Abilities:
Hydron-Three breathers: To survive offworld, they needed to carry special containers filled with hydron-three, and often wore specialized suits to sustain their needs. These suits mean they are always wearing environmental protection, however without their natural atmosphere they begin taking damage, increasing by 1D per round (1D first round, 2D second, 3D third, etc), as they gasp for breath and die.

Move: 9/11

Description: Geranites, also known simply as the Geran, were a species of Near-Humans that inhabited the planet of Geran in the Mneon system. Their features usually consisted of pale shades of purple, blue, green, and pink skin tones, white eyes, and three-digit hands. To survive offworld, they needed to carry special containers filled with hydron-three, and often wore specialized suits to sustain their needs. Their religion was based on a belief in the Sky Seraphs. Doallyn was one of the best known members of the species.
