Special Abilities:

Small Size: Hoovers are small creatures capable of fitting inside many machines and repairing them from the inside. This small size does allow them to be easily carried by normal sized creatures, but also thrown and harmed, leading their natural need to seek cover and concealment.

Story Factors:

Blood Drinkers: Hoovers could use these snouts—also known as nose trunks—to slither through clothing and around blankets. It also enabled them to suck the blood of sleeping victims, belying their otherwise harmless appearance.

Description: Attark was a male Hoover who lived during the Galactic Civil War. By 4 ABY, he was the pet of the crime lord Jabba the Hutt in the latter's palace on the planet Tatooine. Attark was a technician, whose small size allowed him to both manipulate electronic equipment and crawl inside machinery to repair it from within. Despite his harmless appearance, at night time Attark would creep up on sleeping victims to suck their blood. In 4 ABY, Attark was present in Jabba's palace when several allies of Jabba's prisoner Han Solo arrived to bargain for Solo's freedom. Those events led to the collapse of Jabba's criminal empire and the death of the Hutt himself, and it was unknown if Attark survived.

Biography
The male Hoover Attark lived during the time of the Galactic Civil War between the Alliance to Restore the Republic and the Galactic Empire. By the year 4 ABY, Attark joined the crime lord Jabba the Hutt's criminal empire on the planet Tatooine, staying in the crime lord's palace as a pet of the Hutt. Attark worked as a technician, and his small size allowed him to easily manipulate detailed electronic equipment, as well as crawl inside machinery and repair it from within. Despite looking harmless, Attark would creep up on sleeping victims to suck their blood at night, using his nose trunk to slither through clothing or around blankets.

In 4 ABY, Attark was present in the Hutt's palace when several Alliance to Restore the Republic operatives arrived to bargain for the freedom of their ally, Han Solo, who was held prisoner in the palace. Those events ultimately led to the death of Jabba and the dissolution of his criminal empire. It was unknown if Attark survived those events.

Personality and traits
Attark possessed tremendous technical abilities, and his small size also aided his work as a technician. Attark would also suck the blood of sleeping victims, while using his nose to slither around protective layers. Attark possessed brown skin and black eyes.
