Description: Kimzi was a human male who served as corporal in the Aldhani Garrison on Aldhani during the height of the Galactic Empire.

***Biography***

During the time of the Galactic Empire, the human male Kimzi served as communications officer at the Imperial outpost on the planet Aldhani, holding the rank of Corporal. The outpost was a dam that stood at the side of a mountain in Aldhani's highlands. In 5 BBY, the outpost was expecting a visit from Colonel Petigar, an Imperial engineering officer who operated from the capital world of Coruscant who was there to draw out plans for a new facility. Kimzi heard rumors that the dam itself would be demolished as a result and discussed them with Lieutenant Gorn. He discovered a team of infiltrators conducting a raid on the garrison's payroll and personally lead a squad down to the vault, where he was killed by Cassian Jeron Andor after shooting Gorn for being a spy.
