Description: Ulaf, known affectionately as Uli, was a human male prisoner of the Galactic Empire that served time on Narkina 5. He worked in Unit Five-Two-D, at Table Five. Forty shifts from his release, Ulaf was pronounced brain-dead by Doctor Rhasiv, a Med-Tech within the facility, after the elderly prisoner suffered a fatal stroke caused by his old age and his grueling working conditions.

He was then euthanized, dying peacefully. Prior to his death, Ulaf was the longest-serving inmate in the prison.
