Description: Omisha Joyo was a human part of the Clan of the Toribota, a nomadic enclave native to Isde Naha. After astronomical conjecture pointed the enclave to the desert moon of Jedha, they believed the star in the system to be the First Light, the first star glimpsed by their early ancestors. Joyo was present in Jedha City shortly before it was destroyed by the Galactic Empire's Death Star.
Joyo wore a resonant helmet that siphoned the call of the First Light and an ancient distillery for the purification of potable water.
