Move: 11 (Swimming)

Description: Pabu fish was a type of fish that inhabited the ocean of the planet Pabu. Around 18 BBY, Wrecker caught a large Pabu fish while he was fishing on Pabu. Wrecker excitedly told Shep Hazard and Hunter that he had got their dinner.

The species was mostly purple in color with orange on its back. It had a large horn protruding from its forehead, in addition to many teeth that stuck out of its mouth.
