Passengers: 5
Cargo Capacity: 100 tonnes
Cover: Full
Altitude Range: Ground (suspended from cable track)
Maneuverability: 0D
Move: 20; 60 kmh
Body Strength: 4D

Description: The Raven's Peak sky train was a type of suspended train utilized by the Galactic Empire to service the Raven's Peak fortress on the planet Eriadu. It consisted of two-floor twin-car passenger trains that could seat at least 5 passengers in each car and moved along a suspended rail line that connected the remote fortress with the lower hills. It had caged windows and a reinforced hull to protect its passengers from blaster fire.
