Droids D6 / Cyborg Mech Droid

Type: Cyborg Mech Droid

Strength: 5D

Equipped with:

- Humanoid Body (four arms, two legs, head)
- Two visual and two auditory sensors - human range
- Vocabulator speech/ sound system
- Retractable finger blades (Str+2 damage)

Move: 7

Game Notes: This is a body used by the Unidentified Cyborg, his brain capsule moving between different droid bodies to allow him to operate, this unit also connects into the Cyborg Spider Tank.

Description: A mech droid was a type of droid used by a cyborg that resided on the planet Mandalore. The cyborg was able to get out of the droid, and also had another form of droid, the Spider Tank. Around 9 ABY, the cyborg captured the Mandalorian Din Djarin. It was later destroyed by Bo-Katan Kryze when she arrived on Mandalore to save Djarin.
