Creatures D6 / Wellagrin (Snow Swiming Non

Name: Wellagrin
Designation: Non-sentient
Skin color: Light blue
Hair color: Black
Eye color: Dark brown
Homeworld: Andraven

DEXTERITY 2D
PERCEPTION 1D
STRENGTH 4D

Special Abilities:

Horns: Wellagrin have 4 large horns on their heads which they sometimes use to defend themselves and their young from predators. These do STR +1D damage in combat.

Snow Swimmers: Wellagrin have the ability to move through Snow as easily as Seals can move through Water, swimming at their normal speed. This allows them to avoid the avalanches which are common on their planet.

Move: 10
Orneriness: 2D

Description: The wellagrins were a type of creatures native to the frigid planet Andraven. Snowball was a member of this species. Wellagrins had the ability to swim in snow.
