Story Factors:

Reputation: Rodians are notorious for their tenacity and their eagerness to kill intelligent beings for the sake of a few credits. Certain factions of galactic civilization (most notably criminal organizations, authoritarian/dictatorial planetary governments and the Empire) find Rodians to be indispensable employees, despite the fact that they are almost universally distrusted by other species. Whenever an unfamiliar Rodian is encountered, most other beings assume that it is involved in a hunt, and give the alien a wide berth.

Description: Lieutenant Mowaat was a Rodian who flew alongside General Hera Syndulla, Captain Carson Teva, Lieutenant Baysee, Lieutenant Jensu, and Lieutenant Lander in an unauthorized mission to Seatos. After the group detected the Eye of Sion, a massive hyperdrive docking ring, exiting the atmosphere of Seatos, the group flew to cross its axis and block its path. The unit failed and suffered casualties with the Sion entering hyperspace through the group. Mowaat's X-wing collided with the X-wing of Baysee, killing the pair of them.
