Description: Lieutenant Jensu was a human female individual who flew alongside General Hera Syndulla, Captain Carson Teva, Lieutenant Baysee, Lieutenant Mowaat and Lieutenant Lander in an unauthorized mission to Seatos. After the group detected the Eye of Sion, a massive hyperdrive

docking ring, exiting the atmosphere of Seatos, the group flew to cross its axis and block its path. The unit failed and suffered casualties with the Eye of Sion entering hyperspace through the group. Soon after, the group landed on Seatos. Despite searching for Ahsoka Tano and Sabine Wren, the master and apprentice duo were nowhere to be found. Eventually Jacen Syndulla, Hera's son, was able to sense Tano's presence through the Force and she was located in the ocean. Jensu jumped into the water from the ramp of the Ghost and swam to Tano's rescue, managing to get the barely conscious Togruta to safety aboard Syndulla's ship.
