Story Factors:

Faith in the Force: Mirialans are deeply religious and have a primitive understanding of the force, which sticks with them throughout their life, meaning that they will rely on the force more heavily that other cultures, believing in the will of the force.

Facial Tattoos: Mirialans will place a unique, often geometrically repeated tattoo on their face and hands to signify that they had completed a certain test or task, or achieved sufficient aptitude for a certain skill. The number of tattoos would thus often act as a good indicator of how mature and/or skilled a Mirialan was.

Description: Abediah Viess was a Mirialan female who served as the general of a mercenary army. Viess and her army traveled to the planet Gansevor around 382 BBY at the request of Bethune army Field Marshal Tozen to support their siege of Firevale. However, she betrayed Tozen killing him and several other Bethune army personnel. She also claimed to have killed several Jedi with her beskar laced spear, calling herself a Jedi killer. She tried to kill Porter Engle twice, failing both times.

After operating as a mercenary-for-hire for a century, Viess eagerly joined the Nihil when their Occlusion Zone engulfed ten sectors of the Outer Rim Territories, including her world. She led Eye of the Nihil Marchion Ro's newly established Ministry of Protection, making use of her expertise in hunting Jedi. Her combat skills and brutality made her a formidable Nihil adversary to those who opposed her. Despite her boasts of being a Jedi killer, her old opponent Engle, continued to elude her until they finally met again around 229 BBY.
