#### Story Factors:

**Faith in the Force:** Mirialans are deeply religious and have a primitive understanding of the force, which sticks with them throughout their life, meaning that they will rely on the force more heavily than other cultures, believing in the will of the force.

**Facial Tattoos:** Mirialans will place a unique, often geometrically repeated tattoo on their face and hands to signify that they had completed a certain test or task, or achieved sufficient aptitude for a certain skill. The number of tattoos would thus often act as a good indicator of how mature and/or skilled a Mirialan was.

## CHARACTER POINTS 2

Description: Jax was a young male Mirialan who was kept as a prisoner in the vault of Tantiss Base, where he was designated SP-32. He, along with two other children named Eva and Sami, were imprisoned due to their high M-count. At one point, he tried and failed to escape, resulting in him getting stunned and being put in isolation for two rotations. He and the other children would eventually escape Tantiss with the aid of Doctor Karr and the Bad Batch.
