These are an estimate of the powers that the Mountain Clan Matron possessed, although as a Dathomirian Mountain Clan her powers manifested in different ways to Jedi and Sith, for example her Force Lightning was White and glowing, and her Absorb/Dissipate Energy (or possibly Greater Force Shield) formed a visible glowing white bubble around her, and her Injure/Kill formed flames around the target. She was also able to manifest her abilities over a far longer range than Sith or Jedi seemed to be able, often with the trappings of magic such as potions or crystals, attacking enemies with Telekinesis or Injure/Kill using a lock of their hair.

Nightsister Magic: Chant of Empowerment, Chant of Manupulation, Weave of Teleportation, Ichor of Invisibility, Chant of Resurrection

Description: A Force-sensitive human female served as Matron of the Mountain Clan, a clan of Dathomiri witches operating in the mountains of the planet Dathomir, during the Clone Wars. Following the massacre of the Nightsisters at the hands of General Grievous, she briefly took in the orphaned Nightsister Morgan Elsbeth. She was the mother of Nali.

Powers and abilities
The Mountain Clan Matron could use a form of white energy to teleport and barriers around herself and create shockwaves capable of dispatching the droids of the Confederacy of Independent Systems.
