

Characters D6 / Tonk (Bounty Hunter)

Tonk

The alien known only as Tonk is the partner of human bounty hunter Setzn Kaizo. Even Tonk does not know what race he belongs to. Most of his past is a mystery to him. He used his size and strength to great advantage and became a bounty hunter. He wasn't all that successful by himself. However he teamed up with the crafty Setzn Kaizo, and between Setzn's brain and Tonk's sheer muscle the two made an excellent team. Tonk isn't stupid though. Far from it, he's crafty and clever, just not at the devious level Setzn's mind works at. The two of them have been working together for five years and have carved a swath across the outer rim and Palvar territories. The most famous incident is when they took part in the Kashan Four bounty hunt. Four people had bounties placed on their heads, the smallest bounty being 200,000 credits. They collected on three of the bounties with a little bit of help from the bounty hunter Rssh`ale, and then took a bounty of 400,000 credits to hunt down the Dark Jedi who had issued the bounties. It's not known if they succeeded in getting the Dark Jedi however Tonk and Setzn walked away from Kashan with a whopping 900,000 credits in their pocket.
