Special Abilities:

Infra Red Vision: Arkanians can see into the Infra Red, allowing them a bonus +1D to counter penalties for darkness, however unless they wear blinders under younger hotter suns, they suffer a -1D penalty to visual rolls.

Story Factors:

Body Alteration: It is standard practice for Arkanians to undergo genetic manipulation of their own bodies, enhancing themselves so as to be better than "lesser" species.

Arrogance: The most defining trait of the Arkanian species was their arrogance which stemmed from their belief that they were the pinnacle of evolution. This led to them often appearing arrogant and aloof to others as they saw themselves as being superior to all other species. Even those with a more moderate viewpoint tended to see themselves as being amongst the most intelligent beings in the galaxy. As such, they were highly confident of their abilities.

Equipment: Vast Riches, Expensive Clothing, Comlink, Datapad

Description: Alok Adasca was the seventh Lord Adasca, son of Argaloh Adasca, and the next head of Adascorp sometime prior to the Mandalorian Wars. He was the father and mentor of his successor, Arkoh Adasca.

Biography

Alok held a wake for his friend Barrison Draay on Arkania as a good-bye from business to "a life of levitating rocks." But he did hope to dissuade Barrison to "save an important investor."

Alok later had a son Arkoh, who became friends with Barrison's son, Lucien.
