Creatures D6 / Armored Amberfly (Gem Eatin

Name: Armored Amberfly
Classification: Fly
Skin color: Brown
Eye color: Purple
Homeworld: Ootoo Prime
Habitat: Caves
Diet: Crystals

Dexterity: 3D
Perception: 2D
Strength: 1D

Special Abilities

Gem Eaters: Armored Amberflies eat Gemstones at an expeditious rate, consuming more than their body weight in moments.

Agitated: Outside of their nest, Armored Amberflies are agitated and will swarm and search out gems to consume, and may prove to be a pest as they may attack those carrying Gems, doing 1D attacks.

Armor: Armored Amberflies are as their name suggests armored, so for small creatures they are surprisingly tough. This gives them a bonus 2D to resist damage.

Move: 20 (Flying), 2 (Walking)
Orneriness: 3D

Description: Armored amberfly, also known as an amberfly, was a species of flies found on Ootoo Prime.
