Edible by: Human, Pantoran, Pooba, Kroop bird
Dishes: Gomgourd pie, Gomgourd Seed and Ration Cream Noodles
Cost: 5 credits
Availability: 1

Game Notes: Fruit used mainly as ingredient in cooking.

Description: Gomgourds were a type of vegetable produced on the planet Omaka. The gourd was cultivated by farmers on the planet, but it also grew in the wild. On a mountain near a settlement, a wild patch of gomgourds grew beneath a Kroop bird nest, for which the avians sourced sustenance.
Gomgourds could be used in several dishes, including a pie, which was often consumed on Dunkutu Day, and the Gomgourd Seed and Ration Cream Noodles dish found at Docking Bay 7 Food and Cargo on the Outer Rim planet Batuu.
