Description: Pobos was a Bothan who worked as an informant for Vedo Anjiliac Atirue in 138 ABY. After Cade Skywalker accepted a job from Vedo to kill Sith scientist Vul Isen, whom he was already hunting, Vedo sent Pobos to meet Skywalker on Utapau to disclose Isen's precise whereabouts. However, Pobos was followed to the rendezvous point by Sith assassins, who shot the Bothan before Skywalker and Jedi Master Wolf Sazen could finish them off. While dying, Pobos provided Skywalker with Isen's location and a warning that the scientist had sent assassins after Galactic Alliance Remnant Admiral Gar Stazi, who was taking refuge on the planet. Pobos' last words implored Skywalker to stop Isen and the assassins.
