Special Abilities:

Tracking: Sakiyan have almost supernatural senses, allowing them to track targets by sound (+2D), by smell (+2D), or at night using their natural thermographic vision.

Temperature Resistant: Sakiyan are resistant to extremes in temperature, able to operate comfortably-without breaking a sweat-at heat levels that might injure non-Sakiyans, as well as frigid depths, although those were less appealing to them. This gives them +2D to resist the effects of heat and cold.

Story Factors:

Honor: Honor was exceedingly important to members of the species, and they divided it into distinct types such as monthrael-personal honor-and yithrael-pride honor. After suffering personal dishonor, a Sakiyan's family and descendants were dishonored as well. However, a family member

could lift the dishonor from the clan name through glory-bringing acts.

Hunters: Sakiyan are natural hunters, and will gravitate towards careers and roles suited to these talents such as Law Enforcement or Bounty Hunting.

Description: Naxy Screeger was a compulsive Sakiyan gambler who was perpetually in debt. Screeger tended to stop in the middle of sentences to think about what he would say next, usually in the form of "whaddya call it."

History

He was a patron of Rik's Cantina on Coruscant, although he hopped many seedy places such as Brogar's Cantina on Lok, where he ran into Cade Skywalker, who sought to collect Screeger's bounty posted by Rav. With little effort, the bounty hunters captured Screeger, who pleaded to be released up until he was turned over to Rav on Socorro.

Screeger soon helped Cade, Jariah Syn, Chak and Kee get into the Golden Gorg Cantina. After the latter got the Grinning Liar back, Screeger tried to beg Cade to let him on the Mynock before Rav killed him. To keep him from creating trouble, Skywalker placed him in the hold where there were rotting gorgs until they could drop him off somewhere.

Some time after the death of Darth Krayt, Screeger became an information broker for Black Sun Vigo Lun Rask, however was undercover as an operative for Cade so that the Mynock could intercept their ships while they were hijacking Imperial freighters and could take the goods for themselves.

He later got a job as gatekeeper in the headquarters of Vedo Anjiliac Atirue, the leader of Anjiliac kajidic. Skywalker, who was requested by Vedo and Jool, Screeger reminded Skywalker that he owed him for telling him that Sith scientist Vul Isen, whom Skywalker was hunting, was on Daluuj. However, only one of Isen's former labs was there, and Skywalker refused to pay him as Isen himself wasn't present before moving in to see Vedo, reminding him that they were invited. Screeger wasn't bothered, and decided to let Skywalker pass, before correcting that only he was invited and causing a door to fall from the ceiling, cutting off Cade from his companions and disappearing into the ground. Several security droids then attacked him, as Vedo wanted to test his skills, but he easily dispatched them with his lightsaber.
