Special Abilities:

Attraction Pheromones: Exuding special pheromones and with limited telepathic abilities, Zeltron increase their persuasion skill +1D.

MInor Telepath: In a direct Perception vs Willpower test, Zeltrons can read a targets emotions, their ability to send emotions is covered by their Persuasion bonus above.

High Metabolism + Second Liver: Zeltron have naturally high metabolisms, which somewhat leads to their reputation as hedonists, as they tend to eat and drink to slight excess. However their high metabolisms mean that except in very rare cases they remain in good physical condition, and shrug off the effects of intoxicants quickly.

Story Factors:

Gullible: Zeltron have a reputation for being extremely gullible, which given their minor telepathic abilities seems unlikely, it is more likely that their natural instinct to make people happy made them play along with anyone trying to trick or con them.

Familiarity: Their natural attractiveness, and minor telepathic powers led to a tendency to look familiar to other people, even if they had never met them.

Hedonists: Because of their high metabolisms and second liver, Zeltron generally eat and drink to what seems like excess to other species, but is natural and required by them to maintain a health weight and feel any effects of intoxicants. This led to them getting a reputation as hedonists, especially given their friendly and highly sexualised behaviour.

Description: Deliah Blue was a female Zeltron chief mechanic of the Mynock and a longtime companion of Cade Skywalker and Jariah Syn during their careers as bounty hunters in the wake Sith–Imperial War and the Second Imperial Civil War. Deliah nursed a certain fondness for Skywalker, and maintained a playful, flirtatious and sexual relationship with him, a relationship that later grew into mutual love.

In 137 ABY, Blue found herself unwittingly caught up in the civil war after a job on Vendaxa revealed that her captain to be not only a Jedi, but the heir to the famed Skywalker bloodline. As a result of her association with Skywalker, Blue, as well as Syn, were captured by Imperials and used as pawns in the Sith's effort to turn Skywalker to the dark side. After they were freed, Blue accompanied Skywalker on his various missions, maintaining a relationship with not only him but various other individuals along the way. Blue was later abducted by Darth Maladi on Wayland, where she was brutally tortured and grafted to a nearly indestructible Sith bioweapon, incurable by even Skywalker's unique healing power. However, Skywalker's former Jedi Master, Wolf Sazen, convinced his former student to utilize the light side of the Force in conjunction with his power, allowing him to save her after drawing on emotions from his professed love for her.

The Zeltron would continue to accompany Skywalker in his war against the One Sith. To kill Sith scientist Vul Isen, the group traveled to Utapau, where Blue saved the life of Galactic Alliance Admiral Gar Stazi from a would-be assassin. Following the resurrection of Darth Krayt, Sith forces launched an assault on the Jedi Hidden Temple on Taivas, where Blue evacuated Cade after narrowly surviving an explosion. Blue and Syn proceeded to fly the Mynock in the final battle of the war, where the ship was shot down. However, Blue was able to repair the ship in time to rescue the love of her life, who had intended to incinerate both himself and Krayt's body in Coruscant's sun.

Personality and traits

A Zeltron, Deliah Blue had bright pink skin, while her hair and lips were a lush shade of blue. Her eyes shone a deep violet. Like most Zeltrons, Blue was fond of partying, and although she would later pursue a career in her life, this liking would never disappear. Her wardrobe contained a wide range of attire for everyday use, as well as armor, Additionally, her usual clothing was fashionable, flashy, and bright, often in neon colors similar to her own natural tones. The group often took advantage of her appearance, such as coercing guards to let them pass, evident in their entrance of Brogar's cantina. Additionally, her species could generate pheromones to enhance their attractiveness, and had the empathic ability to read and feel the emotions of others. This made her very persuasive, and she even tried to seduce Gar Stazi, leader of the Galactic Alliance Remnant, for a better deal on the weapons she was selling.

One of Deliah Blue's greatest traits was her loyalty to her friends, particularly Cade Skywalker and Jariah Syn. Although the three often got into fights, threatening to shoot, maim, or even murder one another on occasion, the bond between them was inseparable. Her attraction to Cade grew into something more, and the bond between them was so strong that Blue felt jealousy when she witnessed Cade kissing Darth Talon, despite the fact that it was mostly an act and Zeltrons were polyamorous. After being captured by the Empire and facing torture, Blue refused to give up Cade's location, despite the fact that he had ditched them on Bastion. She would give her life for him, and challenged his decision to exchange his life to the Sith for hers and Jariah's. After being freed, she refused to leave the planet without him. Even when he began to redevelop feelings for Azlyn Rae, Deliah loved Cade enough to let him be with her since she brought out the best in him.

Skills and abilities

In addition to being very persuasive, Blue was an extremely skilled mechanic. She had a reputation of being able to fix anything with a hydrospanner, and managed to keep the Mynock running, even in the most desperate of times. Even in files collected by Imperial Intelligence, Blue was regarded as one of the best Zeltron mechanics in the galaxy. She was known to have encountered and rebuilt the legendary Firespray-31-class patrol and attack craft sometime during her life. Deliah Blue was also skilled at flying the ships she maintained, maneuvering the Mynock on multiple occasions, particularly during the insertion and extraction of other members of the crew on the ground.

Deliah was also a crack shot with a blaster or another projectile weapon, a necessary skill for bounty hunting. She was able to hit the fast-moving Jedi Hosk Trey'lis with a single dart in the face. She later fought on Vendaxa and Daluuj against dangerous creatures, stormtroopers, and Sith and escape relatively unscathed physically. Deliah Blue used a Bluebolt blaster pistol as well as a concealed dart launcher which fired darts that were filled with a sedative that knocked out her targets.

Blue was also skilled at tattooing, evident when she tattooed a black skull on Cade Skywalker's right arm.
