

Planets D6 / Genya

Name: Genya

Class: Terrestrial

Points of interest: Mount Jobin

Description: Genya was a mining planet. The company Zonus Corporation extracted metals and natural resources from it.

Places of Interest

Genya City

A large industrialised city containing many slave operated factories for the Zonus Corporation.

Mount Jobin

Mount Jobin was a mountain on the planet Genya. While the bounty hunters Sevn and IV-A4 were searching for members of an insurgent group, IV-A4 reported the group's last known location was Mount Jobin.
